MATH 221/821: Differential Equations UNL, Fall 2014, Section: 007, CRN: 20778/20779 Lecture: M,W,F, 10:30 am-11:20 am, Bessey Hall 108

Instructor:	Dr. Adam Larios Office: Avery Hall 305 Office Hours: M,W,F, 9:30 am - 10:20 am, o	Email: alarios@unl.edu Math Dept. Phone: (402) 472-7250 or by appointment	
Prerequisites:	Math 106, 107, and 208. You are expected to know differentiation and integration techniques and to be familiar with vector fields and parameterized curves.		
Textbook:	Differential Equations, Computing and Modeling. Edwards and Penney, 4^{th} Edition.		
ACE Outcome 3:	"Use mathematical, computational, statistical, or formal reasoning (including reason- ing based on principles of logic) to solve problems, draw inferences, and determine reasonableness." Your instructor will provide examples, you will discuss them in class, and you will practice with numerous homework problems. The exams will test how well you've mastered the material. The final exam will be the primary means of assessing your achievement of ACE Outcome 3.		
Contacting me:	The best way to contact with me is by email, 221/821] somewhere in the title and make su email. Polite, courteous emails are apprecia etiquette. My office is in Avery Hall, room 30 am - 10:20 am. Drop-ins are welcome during the different time, please email me in advance, and	re to include your whole name in your ted; see my website for tips on email 5, and my office hours are M,W,F, 9:30 hese times. If you want to meet me at a	
	NOTE: Because of privacy rights, I cannot discuss grades over email or tele- phone. Please do not email me asking about your grade. I will not be able to give you any information. Of course, I am happy to discuss grades in my office.		
Description:	First and second-order methods for ordinary separable, Laplace transforms, linear systems,		
Motivation:	Differential equations lie at the heart of an extr ena. Our understanding of these equations an amount of progress for the human race. Further mously varied, rich, and challenging. Research cutting edge of nearly every discipline in science requires cutting-edge mathematical tools and o	ad their solutions has yielded a massive ermore, the unsolved problems are enor- in differential equations is found at the ce and mathematics, and progress often	
	In this course, we will start at the beginning, equations, known as "ordinary differential equ equations involved are incredibly useful in m develop sophisticated and beautiful mathemat	ations" (ODEs). Even at this level, the nodeling nature, and will require us to	
Homework:	Homework is designed to help students understa exams. Homework assignments will be posted represent a minimal assignment. Some student from the text to attain sufficient mastery of the	on the website. The suggested exercises as may have to work additional exercises	

- Reading &You are expected to read the appropriate sections of the text before coming to the classExercises:meeting in which the topic is scheduled. You are also expected to work through the
indicated exercises after the corresponding material is presented in class, and before
the next class meeting.
- Scheduling: A tentative schedule of assignments and exams is included in this syllabus. These details are presented as a guide. Your instructor may change the dates for each assignment and/or exam, modify the exercise list, and/or add assignments. It is your responsibility to keep track of the course details and schedule for your section.
- **Collaboration:** Collaboration is encouraged in this course. However, copying someone else's work and submitting it as your own is unacceptable. This act of academic dishonesty will be prosecuted in accordance with university policy.
- **Electronics:** Calculators, laptops, tablets, cell phones, and other non-medical electronic devices are not permitted during exams unless otherwise stated. During class, cell phones should be set on vibrate or off. If you need to take a call, send a text message, etc., please quietly leave the classroom to do so, so that you do not distract other students. You are welcome to return to class quietly when you are finished. If you wish to take notes using an electronic device, you must first demonstrate to me that you can type or write fast enough to do so properly, and that you can do it without distracting others, before the privilege to use such devices may be granted. If you are found to be abusing this privilege, you risk forfeiting it.

Grading: Your minimal course grade will be computed as follows.

			01		
Homework:	10%	A	90%	—	100%
Midterms:	$3\times 20\% = 60\%$	В	90% 80% 70%	_	89.99%
Final Exam:	30%	C	70%	_	79.99%
	—	D	60%	_	69.99%
Total:	100%	F	0%	_	$\begin{array}{c} 100\% \\ 89.99\% \\ 79.99\% \\ 69.99\% \\ 59.99\% \end{array}$

- Attendance:Daily attendance for class lectures is expected and is extremely important. While attendance is not recorded, missing even one class will put you behind. Note that there is a strong correlation between class absences and poor grades. You are responsible for all material and announcements in class regardless of whether or not you attended.
You are also responsible for making arrangements with another classmate to find out what you missed. You should not ask me to go over material you missed (due to tardiness or absences) during office hours or over email.
- Make-up exams: Make-up exams will only be given with written evidence of an official university excused absence.
- Incompletes: A grade of "incomplete" may be considered if all but a small portion of the class has been successfully completed, but the student in question is prevented from completing the course by a severe, unexpected, and documented event. Students who are simply behind in their work should consider dropping the course.

ADA Statement:	Students with disabilities are encouraged to contact the instructor for a confidential discussion of their individual needs for academic accommodation. It is the policy of the University of Nebraska-Lincoln to provide flexible and individualized accommodation to students with documented disabilities that may affect their ability to fully participate in course activities or to meet course requirements. To receive accommodation services, students must be registered with the Services for Students with Disabilities (SSD) office , 132 Canfield Administration, 472-3787 voice or TTY.		
Grade Questions:	Any questions regarding grading/scoring of homework, exams, or projects must be made within two class days from when they were handed back, or no change in grade will be made. NOTE: Because of privacy rights, I cannot discuss grades over email or tele- phone. Please do not email me asking about your grade. I will not be able to give you any information. Of course, I am happy to discuss grades in my office.		
Special Dates:	Oct. 17, 2014 (Friday): Nov. 14, 2014 (Friday):	Last day to withdraw from this course and not have it appear on your transcript. Last day to change your grade option to or from Pass/No Pass. Last day to drop this course and receive a grade of W. (No permission required.) After this date, you cannot drop.	
Departmental Grading Appeals Policy:	Students who believe their academic evaluation has been prejudiced or capricious have recourse for appeals to (in order) the instructor, the departmental chair, the departmental appeals committee, and the college appeals committee.		
Final Exam Policy:	Students are expected to arrange their personal and work schedule to allow them to take the final exam at the scheduled time. No student will be permitted to take the final exam early. The final exam for this course is: Friday, December 19, 2014, 10:00 am - noon (same classroom).		
Disclaimer:	While this syllabus was prepared carefully and according to information available at the beginning of the semester, changes may be necessary in the interest of good teaching. Changes to any of the information above will be announced in class and posted on the class web site. This includes in particular possible updates or corrections to the syllabus, and changes of exam dates.		

Rough schedule:

The following tentative schedule is a rough guide to the material covered in the course, but is subject to change. Updates and changes to the content will be announced in class or on the course website.

#	Day	Date	Material	Homework	Notes
1	M	8/25	1.1	p.8: 1, 2, 5, 7, 15, 16, 20, 32	
2	W	8/27	1.2	p.17: 1, 4, 7, 15, 19, 24	
3	F	8/29	1.3	p.27: 1, 2, 5, 11, 12, 14, 15, 19	
_	М	9/1			Labor Day - NO CLASS
4	W	9/3	1.4	p.43: 1, 3, 7, 10, 12, 16, 19, 21, 26, 40, 49	
5	F	9/5	1.5	p.56: 3, 6, 16, 17, 19, 20	
6	М	9/8	1.5, 1.6	p.56: 22, 27, 29, 33, 35; p.74: 1, 3, 6, 9, 13
